

Waipipi Organics - Web form submission

Critical Infrastructure Resilience

What is your name?

David Brown

What is your email address?

brownd@farmside.co.nz

Are you responding as an individual or on behalf of an organisation?

Waipipi Organics Ltd

Do you consent for your submission (including identifying information) to be published and shared in lines with terms for this public consultation?

Yes

Do you consent for your submission (including identifying information) to be published and shared in lines with terms for this public consultation? - Please note what should be withheld and for what reasons.

[Nil]

Does more need to be done to improve the resilience of New Zealand's critical infrastructure system?

No

Have you had direct experience of critical infrastructure failures, and if so, how has this affected you?

No

How would you expect a resilient critical infrastructure system to perform during adverse events?

No

Would you be willing to pay higher prices for a more resilient and reliable critical infrastructure system?

No

The work programme's objective is to enhance the resilience of New Zealand's critical infrastructure system to all hazards and threats, with the intent of protecting New Zealand's wellbeing, and supporting sustainable and inclusive growth. Do you agree with these objectives? If not, what changes would you propose?

this is not needed

Do you agree with the proposed criteria for assessing reform options? If not, what changes you would propose?

just leave it alone

Do you think the megatrends outlined pose significant threats to infrastructure resilience?

No

Are there additional megatrends that are also important that we haven't mentioned? If so, please provide details.

None

Do you think we have described the financial implications of enhancing resilience accurately? If not, what have we missed?

just scare mongering

How important do you think it is for the resilience of New Zealand's infrastructure system to have a greater shared understanding of hazards and threats?

not very important

If you are a critical infrastructure owner or operator, what additional information do you think would best support you to improve your resilience?

n/a

What do you think the government should do to enable greater information sharing with, and between, critical infrastructure owners and operators?

keep out of it

Would you support the government having the ability to set, and enforce, minimum resilience standards across the entire infrastructure system?

No

Would you support the government investing in a model to assess the significance of a critical infrastructure asset, and using that as the basis for imposing more stringent resilience requirements?

[Nil]

What criteria would you use to determine a critical infrastructure asset's importance? Investing in a model to assess a critical infrastructure asset's criticality, and using that as the basis for imposing resilience requirements that are more stringent on particularly sensitive assets?

[Nil]

Do you think there is a need for the government to have greater powers to provide direction or intervene in the management of significant national security threats against a critical infrastructure? - Is there a need for greater powers? If so, what type of powers should the government consider? What protections would you like to see around the use of such powers to ensure that they were only used as a last resort, where necessary?

keep out of it

Do you think there is a need for a government agency or agencies to have clear responsibility for the resilience of New Zealand's critical infrastructure system

no you just want to 50% to Māori

Do you think there is a need for compliance and enforcement mechanisms (eg. mandatory reporting, penalties, offences) to ensure that critical infrastructure operators are meeting potential minimum standards?

No

What additional comments do you have?

another waste of tax payers money
